

Volatile Organic Compounds (VOC) Compliance Declaration

On March 4, 2020, the Standardization Administration of the People's Republic of China (SAC) released four mandatory national standards on Volatile Organic Compounds (VOCs) in coatings, adhesives, inks and cleaning agents. These new standards affect enterprises using these products in the electrical and electronics industry. The People's Republic of China National Standards are listed below.

- GB 30981 – 2020: Limit of harmful substances of industrial protective coatings.
- GB 33372 – 2020: Limit of volatile organic compounds content in adhesives.
- GB 38507 – 2020: Limits of volatile organic compounds (VOCs) in printing ink.
- GB 38508 – 2020: Limits for volatile organic compounds content in cleaning agents

Note: The above mandatory national standards were released on March 4, 2020. Except GB 38507-2020, which will be implemented on April 1, 2021, the other standards will become effective on December 1, 2020.

Allegro MicroSystems, Inc. parts delivered to our customers do not have any VOCs intentionally added, are not intentionally present or contained in concentrations at or greater than the requirements as defined in the applicable standard. The parts sold by Allegro MicroSystems, Inc. are fully encapsulated, therefore outgassing effects are mitigated. Allegro MicroSystems, Inc. believes to the best of our knowledge, that we are in compliance with the above four (4) People's Republic of China National Standards. It shall be noted that Allegro MicroSystems, Inc. continues its efforts reviewing and understanding all the requirements of these new standards. As additional information is understood, our compliance program will adjust appropriately. Should new information be provided from our suppliers which changes the status of our parts, notification will be provided promptly.

Allegro MicroSystems, Inc. assures customers that everything reasonably possible is being performed to maintain compliance with all environmental standards. However, Allegro MicroSystems, Inc. does not produce any of the materials contained in our product, notwithstanding anything to the contrary contained in any document, Allegro MicroSystems, Inc. shall not be liable, under any theory of law, and shall not be responsible to defend or indemnify any party should any material be out of compliance. Controls are in place to help assure that Allegro MicroSystems, Inc. remains compliant. We will continue to communicate with our suppliers and maintain compliance records for all our products as part of our compliance program.
