

Dimethyl Fumarate Declaration

We, the undersigned, herewith declare, in regard to EU Directive 2009/251/EC requiring products containing the Biocide Dimethyl Fumarate (DMF) are not placed or made available on the market, that Allegro MicroSystems, Inc. products and packing materials do not contain and will not produce such chemical element.

Allegro MicroSystems, LLC, is pleased to provide our customers with information regarding the materials used in the manufacturing of our semiconductor products and packing materials. We value our relationship and appreciate the need for environmental controls. Allegro considers itself to be an environmentally responsible company.

We believe that we are in compliance with all applicable local, state, federal, and international environmental regulations. To the best of our knowledge, applicable hazardous substances are not present, in excess of specified threshold limits, in the parts that Allegro sells or in the packing materials used for shipping said parts.

Allegro takes environmental control seriously and we want to assure our customers that we are doing everything reasonably possible to maintain compliance with all environmental standards. However, because we are not the producer of any of the materials contained in our product, notwithstanding anything to the contrary contained in any document, Allegro shall not be liable, under any theory of law, and shall not be responsible to defend or indemnify any party should any material be out of compliance. We believe the controls we have in place will help to assure that Allegro remains compliant. We remain willing to answer any questions you may have regarding our environmental controls.
