

End of Life Disposal

Products supplied by Allegro MicroSystems, LLC, should be disposed of in accordance with local, regional, and national regulations.

To assist our customers in determining the appropriate disposal methods, Allegro is pleased to provide detailed composition data upon request. Data is available both in Allegro's standard format and through the automotive industry tool IMDS.

Please note, Allegro's products comply with the EU Directive 2000/53/EC (ELV) and subsequent Commission Directive 2017/2096/EC on End Of Life Vehicles, as well as the requirements of EU Directive 2002/95/EC (RoHS) and 2011/65/EU (RoHS II), amended by 2015/863/EU, on the Restriction of the use of certain Hazardous Substances in electrical and electronic equipment. Allegro's products do not contain materials restricted by these standards that are above defined threshold values, unless otherwise allowed by an exemption incorporated into these standards. For detailed information on specific products please contact Allegro.

A handwritten signature in black ink that reads "Kristian Bonzey".
